

SALT DOUGH JEWELLERY

Makes 1 ball

Prep 10 minutes (Cook 3 hours)

Ingredients

250g of plain flour

125g of table salt

125ml of water

Method

1. (If oven baking) Preheat the oven to its lowest setting and line a baking sheet with baking parchment.
2. Mix the flour and salt in a large bowl. Add the water and stir until it comes together into a ball.
3. Transfer the dough to a floured work surface and shape into your chosen model. You can roll it out and cut out shapes, numbers or letters using biscuit cutters.
4. Print designs/patterns into the dough
5. Leave to cool/dry or if cooking:
Put your finished items on the lined baking sheet and bake on the low heat for 3 hrs or until solid. (The bigger/fatter the model, the longer it will take to harden in the oven).
